Austco Healthcare awarded a \$3.9M contract to supply its advanced IP nurse call system for a new aged care facility

Austco Healthcare Limited's (ASX: AHC) subsidiary Austco Marketing & Service (Canada) is pleased to announce a major contract win, securing an AUD \$3.9M deal to supply and install its industry-leading Tacera platform and comprehensive low-voltage solution for the new 192-bed Maple View aged-care facility in Athens, Ontario. The facility, owned and operated by the Municipality of Leeds and Grenville, is set to open in late 2025 and will be one of Ontario's most advanced aged-care facilities. The Maple View Lodge Redevelopment Project is the largest capital project ever undertaken by the Counties.

The contract represents a significant contract win and includes Austco's latest Tacera System with built-in Real-Time Locating System (RTLS) functionality, Pulse Mobile and Enterprise Reporting. In addition, Austco's low-voltage package will consist of Wanderguard resident wandering system, Access Control, audio-visual systems and CCTV. Built with an open architecture and featuring an application programming interface (API), Tacera is designed to integrate with a wide range of hardware, software, and other systems at Maple View.

Austco Healthcare CEO, Clayton Astles, stated that the company is excited to partner with the staff and leaders of Maple View to deliver the industry's leading clinical care communications and staff workflow solutions. This partnership comes at a critical time, as the government of Ontario is committed to strengthening long-term care across the province, and Maple View will play a significant role in providing support and palliative care for long-term patients.

"We are thrilled to have the opportunity to work with Maple View and help them provide the best care for their patients and residents," said Astles. "This contract win is a testament to the strength of our product offering and our commitment to delivering innovative solutions that make a real difference in healthcare."

Construction has already commenced and is expected to be completed in 2025. Revenue recognition is expected to begin this financial year.

Austco Healthcare is proud to be a part of this important project and looks forward to working with Maple View to deliver the best results in clinical care communications and staff workflow solutions.

This announcement has been approved for release by the Board of Austco.
