Austco Healthcare completes acquisition of Medical Communications Systems

Austco Healthcare Limited (ASX: AHC) ("Austco" or "the Company") is pleased to announce the completion of the acquisition of Medical Communications Systems Pty Ltd ("MCS"), Austco's long-standing certified reseller in South Australia as announced on 10 August 2026.

MCS Overview and Acquisition rationale

MCS is based in Morphett Vale, South Australia, and has been Austco's certified nurse call reseller in South Australia since 2011. MCS has 12 staff and supplies, installs and services nurse call and healthcare communication systems for healthcare and aged-care customers across South Australia.

The acquisition is consistent with Austco's strategy of using disciplined M&A to bring established resellers in-house, strengthen direct sales capability and deepen customer relationships in the Australian healthcare market.

The acquisition is expected to:

1. **Strengthen direct sales capability in South Australia**

Bringing MCS in-house gives Austco a direct presence and direct customer relationships in the South Australian market, in place of the existing reseller arrangement.

2. **Continue a proven acquisition model**

The acquisition follows the same reseller-acquisition model as Teknocorp, Amentco and G&S Technologies, all of which have integrated successfully and contributed to Austco.

3. **Retain experienced local capability**

MCS's key personnel will remain with the business following completion.

Acquisition Completion Particulars

Austco has paid the upfront cash consideration of \$2,236,325 from existing cash reserves. The earnout is expected to be approximately \$0.64 million. For further information please refer to Austco's announcement of 10 August 2026 "*Austco Healthcare to acquire Medical Communications Systems*".

This announcement has been approved for release by the Company Secretary of Austco Healthcare Limited.
